4 Utilities Division crews from the Department of Public
5 Works have begun spring flushing of the town water mains. Most
6 work will be completed by Friday, May 1, with some daytime
7 flushing continuing through May 8.

8 Customers are asked to check the flushing schedule
9 closely, as flushing causes water discoloration, low water
10 pressure, and, in some areas, periods of no water.

11 Water main flushing will occur during both night (10
12 p.m. to 6 a.m.) and day (9 a.m. to 4 p.m.).
